• Termly pupil progress meetings and tracking assessments to measure progress and further identify gaps in learning – accelerated progress expected with children closer to ARE as a result with gaps closed
Yr End data indicates that children are catching up slowly, however there have been additional bubble closures this year which has impacted on planned support, together with staff absences.

• Tracking shows that pupils are making good progress in phonics and spelling and gaps are being filled.
• Phonics screening shows that pupils have caught up on lost learning.
• Monitoring of reading and writing
• Support online for daily language input – progress with language and confidence.
